Rattler Bites Boy

FORT MEYERS, Fla. (AP) - A boy bitten on both ankles by a diamondback rattlesnake in a trackless cypress swamp was in critical condition

Doctors said they were unable to give him effective doses of an antivenom serum because of an allergy, but early today they began giving him small doses in hopes his body would build up a resistance that would permit larger doses.

Deputy Sheriff Jim Bradley gave this account:

The large snake struck 13-year-old Larry Bellanger of Fort Myers while he was hunting harmless snakes with four other boys in the swamp.

Lee Bochette, 15 year-old eagle scout and leader of the snake hunt, administered first aid. He used a snakebite kit, splitting open the puncture wounds and applying suction cups.

Meanwhile, the other three boys went for help, running for half an hour before reaching a telephone. They called the sheriff's office.

Lee in the meantime hoisted Larry on his shoulders and carried him a 11/2 miles to the nearest house. The owner of the house drove them to Lee Memorial Hospital.

Koreans Got 'Brainwash'

CORONADO, Calif. (AP) — "We came out of this thing with amazing morale," said the Pueblo's executive officer. "There was no brainwashing. If anybody was brainwashed, it was the other side."

After the crew's return in December from North Korean imprisonment, Lt. Edward R. Murphy Jr. also told newsmen: "We had absolute faith in the American government."

Murphy was recalled to testify today before a Navy court of inquiry shifting its focus from the mission and capture of the U.S. intelligence ship to the imprisonment of its men.

This begins the third and final phase of the court's month-long investigation ordered by the commander-in-chief of the Pacific Fleet.

The court of five admirals returned Saturday from what its president, Vice Adm. Harold G. Bowen Jr., described as an extremely useful inspection of the USS Palm Beach.

Grain Conference Wednesday

DEXTER—A grain conference will be held here Wednesday for area farmers. The meeting, which will begin at 9:50 a.m. at the Civic Center, is sponsored by the University of Missouri Extension Division.

Topics to be included in the conference are insect control. weed control, management problems and new crops research.

The Civic Center is located on the corner of South Elm and Vine.

Mc Donnell Approves Contract

ST. LOUIS (AP) — Members of the International Association of Machinists (IAM) returned to work at McDonnell Douglas Corp. at midnight Sunday under a new contract.

The company's latest offer was approved at a union mass meeting Saturday morning at the arena. The vote was 7,319 to 3,678

The union struck the giant aircraft and aerospace manufacturer Jan. 13 in disagreement over a proposed

POOR CHARLIE SAYS! TAKE OUT THE PHONES

None of the newspaper accounts which we read were very precise on the events at the White House on January 20, and so we still do not know if Lyndon Johnson turned out all the lights before going up to the Capitol to trn over the reins of government to Richard Nixon. But it seems clear that one thing he did do was to call the telephone company and tell them to take out the phones at the ranch. And that set in motion what is surely the

biggest demolition team in the history of the State.

Don't misunderstand. This demolition team is not going to break up the 6,300-foot airstrip that was built extra-marital conquests. on Lyndon's ranch; it is not going to tear down the several buildings and trailers that have been used to house HOW TO STOP EXODUS OF YOUNG PEOPLE guests, staff and newsmen. These buildings will be needed Of course, we are among those who believe that a tax to quarter the dozen or so Secret Service men who will incentive program to induce economic expansion of rural guard Mr. & Mrs. Johnson, as well as the two Air Force and small-town America will prove a most effective sergeants who are on detail at the ranch. Nor are all those solution to the twin problems of rural stagnation and "wild flowers" which the Bergstrom Air Force men urban over-concentration. planted at the ranch last summer and fall going to be dug This is the prevailing opinion among the nation's

development of new low-calorie products, changing living receive immediate attention from the 91st Congress.

The vigorous advertising competition among competitive brands may lead to an overall increase in the tired herself out carrying around a big muff? consumption of soft drinks. However, the rise of new brands indicates that people give thought to a purchase even when a dime is involved.

The result has been a change in the nature of soft-drink advertising. Companies which once assumed that simple repetition of a name was enough to sell a brand of soda-pop are giving increased attention to describing special features of their products.

Also, the soft-drink industry is turning more and more to local media for advertising. The industry realizes that what happens in a local grocery store may depend more upon a statement in a hometown publication than gimmicks used in a multi-million dollar television

The marketing trends in the soft drink industry are following a pattern that is typical in a lively, highly

POLLY'S POINTERS Whiplash Victim

Needs Eve-Level Table

By POLLY CRAMER

Polly's Problem

DEAR POLLY-I would like to hear about some of the readers' arm-saving tricks as I have limited use of my arms due to a whiplash injury. I am unable to reach over my head. All work must be done at eye level. Does anyone have suggestions for a table that can be used at eye level? The weight of my arms is too much for my neck. I do typing as therapy, sitting in a chair with arms high enough to support my arms and it works fine. I am unable to look down so I have trouble keeping the typing high enough to see. I would like to hear from other whiplash victims - MRS

DEAR POLLY-To keep suitcases clean, and from col lecting nicks and dust while stored. I put them in 32-gallo

plastic garbage can liner bags. They are large enough to hold the biggest suitcase, or one will hold two smaller cases. Saves having to clean luggage every time you use it. DEIEDRE

DEAR POLLY-I am an sering Mrs. K. E. S. who has a card table with a E warped top. We removed

our old top, put on a new one made of 14-inch plywood seminars. "The Practice of that can be in any finish. We painted a checkerboard in red and black blocks in the center, put a black strip around the edges of the table and a yellow band between the checkerboard and the black strip. After this was dry, we applied two coats of varnish and have a very useful and attractive card table.-MRS. L. G.

> DEAR POLLY-We had the same situation as Mrs. K. E. S. with an old card table (in fact we had two). We were having a big family dinner and needed more table space so had two 36-inch square pieces of 11-inch plywood cut from a good grade. My husband used wood screws to attach one of these to each table and we had two nice tables with larger tops than regular card tables -MRS II K T

Missouri Class "L" highs appears

weeks ago, independents Moberly, Helias of Jefferson City, Fulton, Waynesville and Lebannon, as well as Rolla -- currently a member of the Central Missouri (CEMO) Conference - revealed intentions of forming a new prep league. The six cited evident scheduling problems, especially in football, for their reason in joining such geographically distant cities and high schools

into a sports union. Moberly, Helias and Fulton were orphaned when the venerable Northeast Missouri (NEMO) Conference disbanded last spring and all three function as sports independents during the 1968-69 season. Another former NEMO affiliate, Class "M" Boonville Public, was admitted to the Tri-County circuit Tuesday, March 11. The fifth member of the Now-defunct NEMO, Kemper Military of Boonville, instigated the scuttling of the league when it elected to seek competition more its level as an independent. So Moberly Fulton and Helias all sought other associations. All three bed to the CEMO, and/ or the North-Central Missouri leagues for admittance; all without

Waynesville, and Lebannon, had been stranded when the old Skyline Conference more - or less black-balled the two "L'

big-cats out of its ranks. And Rolla had become disenchanted with the CEMO after a decade as that loop's all .

sports doormat. Other members of the CEMO are Hannibal, Sedalia Smith -Cotton, Columbia Hickman, Jefferson City Senior High and Mexico, Marceline and Brookfield. The Tri-County clubs, in addition to Boonville Public, are Camdenton, California, Iberia, Eldon, School for the Osage, Tipton and

Versailles. The CEMO tossed the fat in the fire of the Moberly - Fulton-Helias - Waynesville - Rolla -Lebannon conference to-be when, in a startling move last Sunday, it extended invitations of membership to the trio of ex-NEMO entries - Moberly,

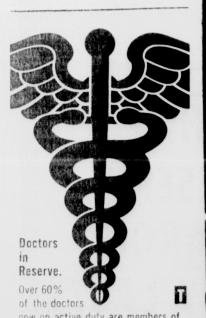

Helias and Fulton. Then, at a Wednesday (March 12) get-together in the "Capital City," the latter three hedged on a commitment to side with Rolla, Waynesville and nool boards of the respective half-doze considering formation of the new league were to make final decisions and the make-or=break of the situation was to be resolved at another meeting of the six March 19-24-hours before the CEMO is to meet again, hopefully to acknowledge acceptance of Moberly, Fulton and/or Helias.

CEMO heads, who only last ummer balked at suggestions of additions to their number, ostensibly extended the invitations under fear that one or possibly more of their members would seek more advantageous athletic arrangements.

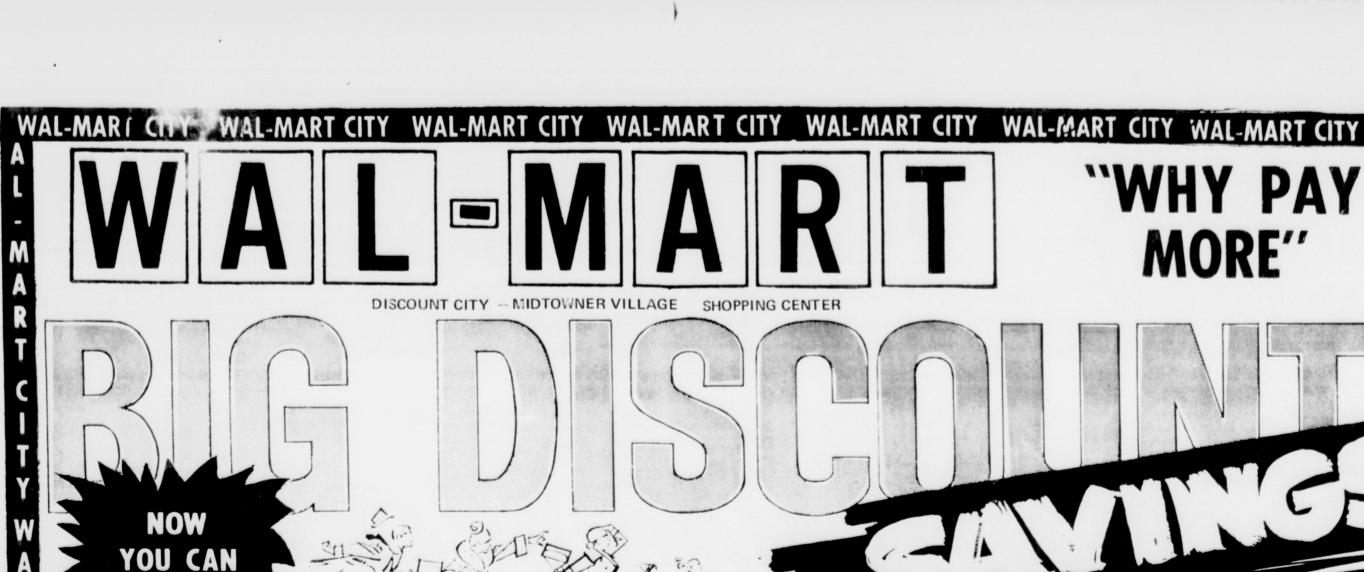

Rolla was known to be searching for greener pastures. Hannibal, on the Mississippi River in the far northeastern corner of the state, plays a sizeable portion of its sports dates against Illinois and Iowa foes. And Mexico has made no bones of its championship frustrations in the CEMO where Hickman and Jeff City's irrepressable Jays have corraled more pennants than Santa Clause has whiskers.

Hickman and Jeff City, the dominant out- state highs in both enrollment and athletic fame and puissance, should be asked to withdraw from the CEMO-thus leaving the other, more evenly- matched highs to battle for conference laurels

But whatever athletic paths the schools mentioned adher to, impending alignment and resultant ramifications should make for interesting reading

It has even specualted that among themselves. come next weekend. THE U.S. ARMY RESERVE

This second of a series of three articles is presented by the local Heart Association to inform readers of this newspaper about progress in the fight against heart and circulatory diseases.

It is quite possible that the Heart Fund, totaling about 416 million dollars over the past 19 years, has already yielded one of the greatest investment returns ever realized by the American people. The results are now coming home. They are being felt right

Although diseases of the heart and circulation continue to be our number one killer, accounting for more deaths than all other causes combined, there has been a decline of 18.4 per cent in the cardiovascular death rate for persons below 65 since the year 1950.

This is no coincidence. The year 1950 also marked the start of a planned, massive assault upon the heart and blood vessel diseases. In essence, it was the year the American people decided to do something about the problem, instead of just talking about it

What has happened since 1950 falls into sharper focus for persons below 65 when we compare the present-day about 253,000 deaths with the 302,000 we would be experiencing if the 1950 mortality rates had persisted. The indicated savings is about 49,000 lives a year

There is a strong likeli-

Clothes are more than fash-ion; they're an urgent necessity

Also d rving of mention is the fa hat the people of this coun have participated in many leart Fund Campaigns, a 1 thus are entitled to share he credit for the health a hievement of dramatic dimensions.

The Heart Fund, which is to be conducted here and throughout the nation through February, underwrites research, professional and public education and community heart programs of your Heart Association. These programs have speeded virtually every advance in cardiovascular medicine in recent years.

It should be noted that the 18.4 per cent decline is a combined figure applying to persons of both sexes under 65. Among men aged 45-64, the overall decline since 1950 has been about 8.4 per cent. despite an increase of about 5 per cent in the death rate from heart attack.

Beyond 65, the outlook is less encouraging. It is among the elderly that the cardiovascular diseases always take their greatest toll. And since more people are living to an advanced age, the nation's mortality from heart and blood vessel disorders at all ages now exceeds 1,000,000 yearly.

Behind statistics which indicate a far brighter picture for those aged below 65 are many tangible achievements. For example

A child with an infected

• Rheumatic fever once more prevalent than polio at its worst, now is on its way to becoming a rare disease. By knocking out the "strep" infection which precedes it, the door can be closed on rheumatic fever and at the same time on rheumatic heart disease.

· Most inborn heart defects yield to surgical correction, made possible by development in the 1950s of the heart-lung machine, which also has enabled surgeons to cross what was once thought to be an ultimate frontierheart transplantation, now in clinical trials.

 Artificial heart valves, synthetic artery grafts and implanted pacemakers to sustain heart rhythm are increasingly successful

· Coronary care units improve by as much as 30 per cent the survival rate among hospitalized heart attack victims

Accompanying these new developments are a host of others-drugs for correction of high blood pressure, vastly improved techniques of diagnosis, external massage for restarting a stopped heart, an artificial kidney to purify the blood of toxic substances when natural kidneys fail, pressure-raising drugs to treat shock, and new methods of treating strokes and rehabilitating stroke patients, to mention only a few.

The 1969 Heart Fund Campaign is being conducted here, and in 8500 other communities, through February.

Stock Broker Sued by Client for Bad Advice

With people buying and selling everything but their underwear in the stock-market and making money at it. Ralph decided to try his inexperienced hand at the game.

He found himself a broker and bought himself \$25,000 worth of stock. Instead of being a bull or a bear in the market, however, it turned out that Ralph had been an ass who had listened to a false prophet about profits.

The broker had told him: "Ralphie boy, I'm giving it to you Mrs. John Russell of Phoenix, Ariz. straight. The stock is a good common stock and can be bought at a low price in proportion to its worth. It's going to rise in value!" And, as fate would have it, the moment Ralph bought the stock, it proceeded to drop to an all time low. Without ado, he sued the Supreme Court Stays broker for misrepresentation.

'The guy was a fraud,' Ralph complained in court. "He gave me a big build up about the stock when it was actually a dud.' "I told it to him as I saw it," was the broker's answer.

"Certainly, it's not my fault the stock went down. That's the stock IF YOU WERE THE JUDGE, ould you make the broker pay for refused Friday to prevent Circuit the product that the courts

leading Ralph astray by false profits? This is how the judge ruled: NO! The judge held that the Moberly from considering could describe it. broker's statement to Ralph had been a matter of opinion and that whether Norfolk and Western statements of opinion cannot be made the basis for an action in Railway must continue its last

grocery store for approximately and diapers. 40 years is now empty. A country market that began from necessity and endured through enterprise, has now died from industrialization.

The structure was originally a school house located east and south of Bakerville on the old Tram Railroad that ran to the various sawmills in the area. It served grades one through eight with an enrollment between 40 and 50 and had a very high pupil turnover. Some of the teachers were George Sigler, Louise Duffy, Effie Ward and Bessie (H untley) Wright.

Deering School District sold the old abandoned school building to Missouri State Life Insurance Co. (which later merged into General American) around 1930 and \$200 and it was moved to its present location before the Cotton Belt Railroad was built through Bakerville. The community was then called Hillsman Taylor.

Missouri Mercantile Co., Southern Gin Co., nd General American Life Insurance Agency all set up offices in the west side of the building. Charles B. Baker was their executive manager and his wife, Hattie Baker, made the trip to market at Cairo, Ill. and purchased the first lot of dry goods for the new establishment. So it became a general

mercantile store to serve the eager, determined farmers who country families. were arriving to help clear and swampland. Various and sundry cotton pick sack; five, seven and first field farm manager followed bookkeepers for Mr. Earls.

shorts, laying mash, horse which type sack to purchase, derived their crop furnish from farm.

Today In

U.S. History

By THE ASSOCIATED PRESS Today is Monday, Feb. 17, the 48th day of 1969. There are 317 days left in the year.

Today's highlight in history: On this date in 1944, during the Pacific war, American forces attacked the Japanese at Eniwetok Atoll in the Marshall Islands.

On this date-In 1621, Miles Standish was made military captain of the Pilgrim colony at Plymouth, Mass.

In 1801, after 35 separate ballots, the U.S. House of Representative broke an electoral tie between Thomas Jefferson and Aaron Burr and elected Jefferson president. In 1817, Baltimore became the first American city to be

illuminated by gas lights. In 1876, sardines are believed to have been canned for the first

time-at Eastport, Maine. In 1916, British and French forces captured Germany's African colony of Cameroon during World War I.

In 1934, King Albert I of Belgium was killed while mountain climbing. Ten years ago

warned France that the French military base at Bizerte might be liquidated if peace terms were not reached with nationalists in Algeria. Five years ago - The U.S Supreme Court ruled that

congressional districts in each state must be roughly equal in population. One year ago - Britain went

off Greenwich Mean Time, moving a step closer to the continent in time if not in space.

Rattler Bites Boy

FORT MEYERS, Fla. (AP) - A boy bitten on both ankles by a diamondback rattlesnake in a trackless cypress swamp was in critical condition today.

Doctors said they were unable to give him effective doses of an antivenom serum because of an allergy, but early today they began giving him small doses in hopes his body would build up a resistance that would permit larger doses.

Deputy Sheriff Jim Bradley gave this account:

The large snake struck 13-year-old Larry Bellanger of Fort Myers while he was hunting harmless snakes with four other boys in the swamp.

Lee Bochette, 15 year-old eagle scout and leader of the snake hunt, administered first aid. He used a snakebite kit, splitting open the puncture wounds and applying suction cups.

Meanwhile, the other three boys went for help, running for half an hour before reaching a telephone. They called the sheriff's office.

Lee in the meantime hoisted Larry on his shoulders and carried him a 11/2 miles to the nearest house. The owner of the house drove them to Lee Memorial Hospital.

Koreans Got 'Brainwash'

CORONADO, Calif. (AP) — "We came out of this thing with amazing morale," said the Pueblo's executive officer. "There was no brainwashing. If anybody was brainwashed, it was the other side."

After the crew's return in December from North Korean imprisonment, Lt. Edward R. Murphy Jr. also told newsmen: "We had absolute faith in the American government."

Murphy was recalled to testify today before a Navy court of inquiry shifting its focus from the mission and capture of the U.S. intelligence ship to the imprisonment of its men.

This begins the third and final phase of the court's month-long investigation ordered by the commander-in-chief of the Pacific Fleet.

The court of five admirals returned Saturday from what its president, Vice Adm. Harold G. Bowen Jr., described as an extremely useful inspection of the USS Palm Beach.

POOR CHARLIE SAYS!

TAKE OUT THE PHONES

None of the newspaper accounts which we read were very precise on the events at the White House on January 20, and so we still do not know if Lyndon Johnson turned out all the lights before going up to the Capitol to trn over the reins of government to Richard Nixon. But it seems clear that one thing he did do was to call the telephone company and tell them to take out the phones at the ranch. And that set in motion what is surely the biggest demolition team in the history of the State.

going to break up the 6,300-foot airstrip that was built extra-marital conquests. on Lyndon's ranch; it is not going to tear down the several buildings and trailers that have been used to house HOW TO STOP EXODUS OF YOUNG PEOPLE guests, staff and newsmen. These buildings will be needed Of course, we are among those who believe that a tax to quarter the dozen or so Secret Service men who will incentive program to induce economic expansion of rural guard Mr. & Mrs. Johnson, as well as the two Air Force and small-town America will prove a most effective sergeants who are on detail at the ranch. Nor are all those solution to the twin problems of rural stagnation and "wild flowers" which the Bergstrom Air Force men urban over-concentration. planted at the ranch last summer and fall going to be dug This is the prevailing opinion among the nation's up.

knows where. It's revealed that ten of those lines - yes, their new plants or offices in non-urban areas.

Not many business partnerships are carried that far. other, "an urban slum." Poor Commander Bucher couldn't rate a phone The proposals include such major provisions as a 7 per Revenue during fiscal year in his own bathroom.

are several -- a younger, more affluent public, the during inflation, we believe the rural-aid bill should development of new low-calorie products, changing living receive immediate attention from the 91st Congress.

The vigorous advertising competition among competitive brands may lead to an overall increase in the tired herself out carrying around a big muff? consumption of soft drinks. However, the rise of new brands indicates that people give thought to a purchase even when a dime is involved.

The result has been a change in the nature of soft-drink advertising. Companies which once assumed that simple repetition of a name was enough to sell a brand of soda-pop are giving increased attention to describing special features of their products.

Also, the soft-drink industry is turning more and more possible. to local media for advertising. The industry realizes that what happens in a local grocery store may depend more upon a statement in a hometown publication than gimmicks used in a multi-million dollar television

The marketing trends in the soft drink industry are following a pattern that is typical in a lively, highly competitive market.

First, the competitors attempt to produce more desirable products, or to find new virtues in old products. Then advertising is geared to selling the product on its he didn't open his mail:

Finally, upon the knowledge that all sales are local, 100 years old. A survey among keep passengers from being Geneva accords, but President Nixon earnestly sought to buying action is stimulated by local advertising.

POLLY'S POINTERS Whiplash Victim

Needs Eve-Level Table

By POLLY CRAMER

Polly's Problem

DEAR POLLY-I would like to hear about some of the readers' arm-saving tricks as I have limited use of my arms due to a whiplash injury. I am unable to reach over my head. All work must be done at eye level. Does anyone have suggestions for a table that can be used at eve level? The weight of my arms is too much for my neck. I do typing as theraps, sitting in a chair with arms high enough to support my arms and it works fine. I am unable to look down so I have trouble keeping the typing high enough to see. I would like to hear from other whiplash victims - MRS

DEAR POLLY-To keep suitcases clean, and from col lecting nicks and dust while stored. I put them in 32-galle

plastic garbage can liner bags. They are large DEXTER-Original editorial enough to hold the biggest suitcase, or one will hold two smaller cases. Saves having to clean luggage every time you use it -DEIEDRE DEAR POLLY-I am an-

NO APPOINTMENT NECESSARY

(2)

Some weeks ago, independents Moberly, Helias of Jefferson City, Fulton, Waynesville and Lebannon, a well as Rolla -- currently member of the Central Missour (CEMO) Conference - revealed intentions of forming a new prep league. The six cited evident scheduling problems, especially in football, for their reason in joining such geographically distant cities and high schools

into a sports union. Moberly, Helias and Fulton were orphaned when the venerable Northeast Missouri (NEMO) Conference disbanded last spring and all three function as sports independents during as sports independents during the 1968-69 season. Another former NEMO affiliate, Class "M" Boonville Public, was admitted to the Tri-County circuit Tuesday, March 11. The fifth member of the Now-defunct NEMO, Kemper Military of Boonville instigated Military of Boonville, instigated the scuttling of the league when it elected to seek competition more its level as an independent So Moberly Fulton and

Helias all sought other associations. All three bed to the CEMO, and/ or the North-Central Missouri leagues for admittance; all without

Waynesville, and Lebannon, had been stranded when the old Skyline Conference more - or less black-balled the two "L" big-cats out of its ranks.

And Rolla had become disenchanted with the CEMO after a decade as that loop's all sports doormat.

Other members of the CEMO are Hannibal, Sedalia Smith Cotton, Columbia Hickman, Jefferson City Senior High and Mexico, Marceline and Brookfield. The Tri-County clubs, in addition to Boonville Public, are Camdenton, California, Iberia, Eldon, School for the Osage, Tipton and

The CEMO tossed the fat in the fire of the Moberly - Fulton-Helias - Waynesville - Rolla -Lebannon conference to-be when, in a startling move last Sunday, it extended invitations of membership to the trio of ex-NEMO entries - Moberly, Helias and Fulton.

Then, at a Wednesday (March 12) get-together in the "Capital City," the latter three hedged on a commitment to side with Rolla, Waynesville and Lebannon. School boards of the formation of the new league were to make final decisions and the make-or=break of the situation was to be resolved at another meeting of the six March 19-24-hours before the CEMO is to meet again, hopefully to acknowledge acceptance of Moberly, Fulton

CEMO heads, who only last ummer balked at suggestions of additions to their number, ostensibly extended the invitations under fear that one or possibly more of their members would seek more advantageous athletic

Rolla was known to be searching for greener pastures. Hannibal, on the Mississippi River in the far northeastern corner of the state, plays a sizeable portion of its sports dates against Illinois and Iowa foes. And Mexico has made no bones of its championship frustrations in the CEMO where Hickman and Jeff City's irrepressable Jays have corraled more pennants than Santa Clause has whiskers.

It has even specualted that Hickman and Jeff City, the dominant out- state highs in both enrollment and athletic fame and puissance, should be asked to withdraw from the CEMO-thus leaving the other, more evenly- matched highs to battle for conference laurels among themselves.

But whatever athletic paths the schools mentioned adher to, impending alignment and resultant ramifications should make for interesting reading come next weekend.

This second of a series of three articles is presented by the local Heart Association to inform readers of this newspaper about progress in the fight against heart and circulatory diseases.

It is quite possible that the Heart Fund, totaling about 416 million dollars over the past 19 years, has already yielded one of the greatest investment returns ever realized by the American people. The results are now coming home. They are being felt right

Although diseases of the heart and circulation continue to be our number one killer, accounting for more deaths than all other causes combined, there has been a decline of 18.4 per cent in the cardiovascular death rate for persons below 65 since the year 1950.

This is no coincidence. The year 1950 also marked the start of a planned, massive assault upon the heart and blood vessel diseases. In essence, it was the year the American people decided to do something about the problem, instead of just talking about it

What has happened since 1950 falls into sharper focus for persons below 65 when we compare the present-day about 253,000 deaths with the 302,000 we would be experiencing if the 1950 mortality rates had persisted. The indicated savings is about 49,000 lives a year.

UGANDA

Clothes are more than fash-

ion; they're an urgent necessity

hood the at least some of 00 beneficiaries these 49 nobody ws how many or re-live here in this Cou

Also d rving of mention is the fa hat the people of have participated this coun in many leart Fund Cam-I thus are entitled paigns, a to share he credit for the health a hievement of dramatic dimensions.

The Heart Fund, which is to be conducted here and throughout the nation through February, underwrites research, professional and public education and community heart programs of your Heart Association. These programs have speeded virtually every advance in cardiovascular medicine in recent years.

It should be noted that the 18.4 per cent decline is a combined figure applying to persons of both sexes under 65. Among men aged 45-64, the overall decline since 1950 has been about 8.4 per cent, despite an increase of about 5 per cent in the death rate from heart attack.

Beyond 65, the outlook is less encouraging. It is among the elderly that the cardiovascular diseases always take their greatest toll. And since more people are living to an advanced age, the nation's mortality from heart and blood vessel disorders at all ages now exceeds 1,000,000 yearly.

Behind statistics which indicate a far brighter picture for those aged below 65 are many tangible achieve-There is a strong likeli- ments. For example

chool house located east and south of Bakerville on the old Tram Railroad that ran to the various sawmills in the area. It served grades one through eight with an enrollment between 40 and 50 and had a very high pupil turnover. Some of the teachers were George Sigler, Louise Duffy, Effie Ward and Bessie (H

untley) Wright. Deering School District sold the old abandoned school building to Missouri State Life Insurance Co. (which later merged into General American) around 1930 and \$200 and it was moved to its present location before the Cotton Belt Railroad was built through Bakerville. The community was then called Hillsman Taylor.

Missouri Mercantile Co. Southern Gin Co., nd General American Life Insurance Agency all set up offices in the west side of the building. Charles B. Baker was their executive manager and his wife, Hattie Baker, made the trip to market at Cairo, Ill. and purchased the first lot of dry goods for the new establishment.

So it became a general mercantile store to serve the eager, determined farmers who were arriving to help clear and farm the newly - drained swampland. Various and sundry cotton pick sack; five, seven and first field farm manager followed bookkeepers for Mr. Earls. supplies were needed by the nine feet. Stock Broker Sued by Client for Bad Advice

With people buying and selling everything but their underwear in the stock-market and making money at it, Ralph decided to try his inexperienced hand at the game.

He found himself a broker and bought himself \$25,000 worth of stock. Instead of being a bull or a bear in the market, however, it turned out that Ralph had been an ass who had listened to a false prophet about profits. The broker had told him: "Ralphie boy, I'm giving it to you Mrs. John Russell of Phoenix, Ariz.

straight. The stock is a good common stock and can be bought at a low price in proportion to its worth. It's going to rise in value!' And, as fate would have it, the moment Ralph bought the stock, it proceeded to drop to an all time low. Without ado, he sued the Supreme Court Stays broker for misrepresentation.

a big build up about the stock when it was actually a dud."
"I told it to him as I saw it," was the broker's answer. "Certainly, it's not my fault the stock went down. That's the stock

leading Ralph astray by false profits? This is how the judge ruled: NO! The judge held that the Moberly from considering could describe it. broker's statement to Ralph had been a matter of opinion and that whether Norfolk and Western statements of opinion cannot be made the basis for an action in Railway must continue its last

"Conway promised Jane Ellen the sun, the moon and the stars, but he still owes her 45 cents from three weeks ago!"

Today In U.S. History

By THE ASSOCIATED PRESS Today is Monday, Feb. 17, the 48th day of 1969. There are 317 days left in the year.

Today's highlight in history: On this date in 1944, during the Pacific war, American forces attacked the Japanese at Eniwetok Atoll in the Marshall Islands.

On this date-In 1621, Miles Standish was made military captain of the Pilgrim colony at Plymouth,

In 1801, after 35 separate ballots, the U.S. House of Representative broke an electoral tie between Thomas Jefferson and Aaron Burr and elected Jefferson president.

In 1817, Baltimore became the first American city to be illuminated by gas lights.

In 1876, sardines are believed to have been canned for the first time-at Eastport, Maine. In 1916, British and French

forces captured Germany's African colony of Cameroon during World War I.

In 1934, King Albert I of Belgium was killed while mountain climbing. Ten years ago -

warned France that the French military base at Bizerte might be liquidated if peace terms were not reached with nationalists in

Five years ago - The U.S. Supreme Court ruled that congressional districts in each state must be roughly equal in population.

One year ago - Britain went off Greenwich Mean Time, moving a step closer to the continent in time if not in space.

Flattering!
